**ACTIVE INGREDIENTS:**
* (RS)-2-Methyl-4-oxo-3-(2-propynyl)cyclopent-2-enyl-(1RS)-cis, trans-chrysanthemate .................................................... 2.00%
** Piperonyl butoxide, Technical ...................................................... 4.00%
*** N-Octyl bicycloheptene dicarboximide ....................................... 6.67%
**** OTHER INGREDIENTS ........................................................... 87.33%

100.00%

* ETOC®
** Equivalent to 3.20% (butylcarbityl) (6-propylpiperonyl) ether and 0.80% related compounds
*** MGK® 264, Insecticide Synergist
**** Contains petroleum distillate

### DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Remove pets and birds and cover fish aquariums before spraying.

Do not allow children or pets to contact treated surfaces until spray has dried.

**FOOD HANDLING ESTABLISHMENT APPLICATIONS**
Do not apply directly to food. In a Federally inspected meat and poultry processing facilities, the facility must not be in operation when this product is used, regardless of the method of application. In non-Federally inspected facilities, careful spot and/or crack and crevice application may be used while the facility is in operation provided exposed food is covered or removed from the area being treated prior to application. Space sprays and general surface treatments may be used only when the facility is not in operation provided food has been covered or removed from the area being treated prior to application.

Do not apply directly to food. Do not allow spray to contact stored food or food contact surfaces. Do not apply as a space spray while food processing is underway. Cover or remove foods before treatment. Cover or wash all food processing surfaces and equipment with an effective cleaning compound followed by a potable water rinse. In the home, cover all food processing surfaces, dishes and utensils before treatment or thoroughly wash before use following treatment.

**NON-FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS:** For use in non-food areas of food processing plants, schools, warehouses, theatres, office buildings, industrial plants, hotels, motels, hospitals, kennels, food service establishments, truck trailers, railroad cars, food manufacturing and warehousing establishments. Non-food areas include garbage rooms, lavatories, offices, floor drains to sewers, entries and vestibules, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage areas after canning or bottling.
This product should be used as directed for the control of the following insects:

Almond Moths
Angoumois Grain Moths
Ants
Blister Beetles
Blood Sucking Lice
Boxelder Bugs
Caddelles
Carpet Beetles
Centipedes
Cereal Beetles
Cheese Mites
Cheese Skippers
Chocolate Moths
Cigarette Beetles
Clothes Moths
Cockroaches
Coffee Bean Weevils
Confused Flour Beetles
Crickets
Dark Mealworms
Darkling Beetles
Deer Flies
Dried Fruit Beetles
Drugstore Beetles
Earwigs
Face Flies
Firebrats
Fleas
Flies
Fruit Flies
Fungus Gnats
Gnats
Grain Mites
Granary Weevils
Harlequin Bugs
Hide Beetles
Horn Beetles
Horns
Indian Meal Moths
Khapra Beetles
Leaf Hoppers
Lesser Grain Borers
Mediterranean Flour Moths
Mosquitoes
Mushroom Flies
Red Flour Beetles
Rice Weevils
Rusty Grain Beetles
Saw-toothed Grain Beetles
Scorpions
Silverfish
Small Flying Moths
Spider Beetles
Spiders
Stable Flies
Stink Bugs
Tobacco Moths
Vinegar Flies
Warehouse Beetles
Wasps
Yellow Jackets

RESTRICITION: Product cannot be used: 1) in areas where livestock animals (human food animals) are housed or fed; 2) in any areas where animal feeds are prepared, processed, or stored, and; 3) in any truck beds or truck trailers, freight/tank/container, railroad cars, ship holds, or ship and air freight containers that are used to transport unbagged (bulk) feeds.

INDOOR USE AREAS
Do not apply to classrooms when in use.

Do not use in aircraft cabins.

Do not apply to patient rooms in hospitals and nursing homes while occupied.

Do not use undiluted space spray in homes, apartments, condominiums and schools.

For use in indoor areas such as:

Apartments
Arcades
Auditoriums
Bakeries
Bars
Basements
Bathrooms
Beverage Plants
Boats
Bottling Plants
Breweries
Brewery Warehouses
Buildings
Busses
Cabinets
Cabins
Cafeterias
Campers
Canneries
Carpets
Churches
Circus Tents
City Missions
Closets
Communication Centers
Concession Stands
Condominiums
Court Houses
Day Care Centers
Department Stores
Diners
Dog Houses
Drug Stores
Dumpsters
Egg Processing Plants
Freight Containers
Fruit Packing Sheds
Garages
Garbage Bins
Garbage Cans
Garbage Compactors
Garbage Trucks
Gas Stations
Grain Elevators
Grain Harvesting & Handling Equipment
Grain Mills
Granaries
Grocery Stores
Homes (households)
Hospices
Hospitals
Hotels
Industrial Installations
Institutions
Jails
Laboratories
Laundromats
Lavatories
Libraries
Liquor Stores
Locker Rooms
Mausoleums
Meat Packing Plants
Mills
Mini-storages
Mobile Homes
Morgues
Motels
Movie Theatres
Museums
Mushroom Processing
Nursing Homes
Office Buildings
Parking Garages
Passenger Railroad Cars
Planes
Pool Halls
Prisons
Public Storages
Rabbit Processing Plants
Recreational Vehicles (RVs)
Restaurants
Retail Stores
Rice Mills
Schools
Smoke Shops
Storage Bins
Stored Food in Multi-walled Paper or Cloth Bags
Stores
Supermarkets
Textile Mills & Warehouses
Theatres
Tool Sheds
Trains
Trucks
Tunnels
Utilities
Voids (i.e. attics, false ceilings)
Walls & Equipment
Voids
Warehouses
Wholesale Stores
Wine Cellars
Winerys
USE DIRECTIONS: This concentrate is designed for use undiluted in mechanical sprayers, which gives particles of aerosol size (5-30 microns). It can be diluted with refined kerosenes, which meet Food Additive Regulation CFR 21, 172.884, and applied in fogging equipment that give larger than aerosol particle size. It can also be diluted with the oil specified above and applied as a contact spray to kill crawling insects shown later on this label. In food warehouse or storage areas do not apply more than once every 4 days. Automated fogging devices can only be used when facilities are not in operation.

UNDILUTED APPLICATIONS:

- **SPACE SPRAY** - Undiluted in aerosol generators - To kill Ants, Boxelder Bugs, Cheese Mites, Cheese Skippers, Clover Mites, Earwigs, exposed accessible stages of Flies, Fruit Flies, Gnats, Hornets, Mosquitoes, Small Flying Moths, Wasps and the following common stored product pests: Angoumois Grain Moths, Cadelles, Cigarette Beetles, Confused Flour Beetles, Dark Meal Worms, Drugstore Beetles, Grain Mites, Granary Weevils, Indian Meal Moths, Mediterranean Flour Moths, Red Flour Beetles, Rice Weevils, Saw-toothed Grain Beetles, Spider Beetles, Tobacco Moths and Yellow Meal Worms: Remove or cover exposed food and food handling surfaces. Close room and shut off all air conditioning or ventilating equipment. Apply at the rate of 1 oz of undiluted concentrate per 1,000 cubic feet of space. Direct output from aerosol generator toward upper corners of room and ceiling. Leave room closed for 1/2 hour and ventilate thoroughly before re-entry. Do not apply this undiluted spray in facilities operating under USDA meat, poultry, and egg grading and egg products inspection programs. Do not remain in treated area.

NOTE: If there is a need to treat such areas as conduits, motor housings, junction and switch boxes or other electrical equipment, de-energize electrical equipment prior to application. After application, allow time for oil to evaporate before starting motors or placing switches in the “ON” position.

- **CONTACT AND SPACE SPRAY** - Undiluted - To kill Ants, Crickets, Cockroaches, Earwigs, Silverfish and Spiders in sheltered situations: Contact as many insects as possible. Do not allow spray to contact stored food. Use at a dosage rate of approximately 1/2 fluid ounce per 1,000 cubic feet of room space. Do not apply more than once every 4 days for control. Leave the room closed for 1 hour. Do not remain in treated areas and ventilate area before re-entry. Do not apply this undiluted spray in facilities operating under USDA meat, poultry, shell egg grading and egg products inspection programs. The facility must not be in operation when used as a space spray or general surface treatment.

- **SPOT, OR CRACK AND CREVICE APPLICATIONS** - Undiluted: Apply in specific areas such as: cracks and crevices in or behind baseboards, in floors, walls, expansion joints, areas around water and sewer pipes, wall voids, or voids in table legs and equipment where pests can hide as well as other similar areas. Spot treatments may also be made to areas including but not limited to storage areas, closets, doors and windows, behind and under refrigerators, cabinets, sinks, stoves, and other equipment, the underside of shelves, drawers and similar areas. Do not apply where electrical short circuits could occur.

DILUTED APPLICATIONS:

- **SPACE SPRAY** - Diluted for ordinary mechanical fogging equipment - To kill Flies, Gnats, and Small Flying Moths. This concentrate is designed for use diluted in mechanical sprayers which gives particles of aerosol size (5-30 microns). Cover or remove exposed food and food handling surfaces. Close room and shut off all air conditioning or ventilating equipment. Dilute concentrate with oil at the rate of 1 oz concentrate plus 29 parts oil or 4.5 ounces per gallon and mix well. Apply at the rate of 2 fluid ounces of diluted spray per 1,000 cubic feet of space or 50 fluid ounces dilute spray (0.4 gallons) per 25,000 cubic feet of space. Direct fog upward towards upper corners of room and ceiling area. Leave room closed for 1/2 hour. Do not remain in treated area. Ventilate room thoroughly before re-entry.

- **CONTACT SPRAY** - Diluted for use with sprayers that give large, wetting spray particles to kill Cockroaches and accessible stages of Granary Insects: Cadelles, Confused Flour Beetles, Grain Mites, Granary Weevils, Meal Moth Larvae and Adults, Red Flour Beetles, Rice Weevils and Saw-toothed Grain Beetles. Cover or remove exposed food and close room as described above. Dilute concentrate with oil at the rate of 1 part concentrate plus 29 parts of oil or 4.5 ounces per gallon and mix well. Spray outside walls of grain bins, flooring, about base of milling machinery, walls and baseboards, areas behind cabinets, around pipes and other insect harborage using 1 gallon spray per 1,000 square feet of space. Do not apply more than once every 4 days for control.

To kill Carpet Beetles: Dilute concentrate with oil at the rate of 1 part concentrate plus 29 parts of oil or 4.5 ounces per gallon and mix well. Apply to floor areas and baseboards. Treat both the underside and topside of infested carpets. Spray inside of trunks, closets and infested areas of shelving. Do not apply more than once every 4 days for control.

- **SURFACE SPRAY** - To insure maximum control of crawling insects: Ants, Boxelder Bugs, Clover Mites, Drugstore Beetles, Earwigs, Lice and Spider Beetles: Dilute 1 part concentrate plus 29 parts oil (refined kerosene) and mix well and apply as a coarse wetting spray using approximately 1 gallon of spray mixture for 750 square feet of surface. Spray walls, floor and other surfaces of bins and storage and handling areas thoroughly, being especially careful to apply the spray into all cracks and crevices in woodwork, walls, floors, underneath sinks, behind pipes and in all places where these insects shelter. Treat unloading, handling and processing areas and inside conveying, processing and handling equipment. Spray thoroughly around the base of heavy machinery and equipment. Spray insects directly when possible.

- **SPOT AND CRACK AND CREVICE TREATMENT** - For Kill of the following crawling insects: Ants, Boxelder Bugs, Clover Mites, Drugstore Beetles, Earwigs, Lice and Spider Beetles: Dilute 1 part concentrate plus 29 parts oil (refined kerosene) and mix well and apply as a coarse wetting spray using approximately 1 gallon of spray mixture for 750 square feet of surface. Spot spray walls, floor and other surfaces of bins and storage and handling areas thoroughly, being especially careful to apply the spray into all cracks and crevices in woodwork, walls, floors, underneath sinks, behind pipes and in all places where these insects shelter. Treat unloading, handling and processing areas and inside conveying, processing and handling equipment. Spot spray thoroughly around the base of heavy machinery and equipment. Spray insects directly when possible.

STORED FOOD: (stored in multi-walled bags or cloth bags) in flour mills, grain elevators, grainaries, storage rooms, warehouses for kill of Angoumois Grain Moths, Cadelles, Cheese Mites, Cheese Skippers, Cigarette Beetles, Confused Flour Beetles, Dark Meal Worms, Grain Mites, Granary Weevils, Indian Meal Moths, Mediterranean Flour Moths, Red Flour Beetles, Rice Weevils, Saw-toothed Grain Beetles, Yellow Meal Worms: Remove and destroy infested products. Dilute concentrate with oil at the rate of 1 part concentrate plus 29 parts oil or 4.5 ounces per gallon and mix well. Disperse this product first by directing spray into corners, under pallets and around stacks of packaged foods hitting as many insects as possible and then treat as a space spray. Infested stored products should be fumigated or treated by other effective methods using an approved product intended for this purpose.

- **USE DIRECTIONS** - For kill of exposed or accessible stages of Ants, Earwigs, Flies, Fruit Flies, Gnats, Silverfish, Small Flying Moths, Spiders and Waterbugs. Dilute 1 part concentrate with 3 parts base oil (refined kerosene) and use with ULV spraying device at the rate of 1 ounce per 1,000 cubic feet of room space. Contact as many insects as possible. Before using, exposed food products and packaging materials must be covered or removed. After use, equipment and utensils must be washed with an effective cleaning compound and rinsed with potable water after use of the product. Use as a space spray only when plant is not in operation.

NOTE: When using oil as the diluent, an odorless light petroleum hydrocarbon as defined by CFR Title 21, 172.884 should be used for all food area and food related applications. Additionally, when diluted and used according to label directions, this spray will meet specifications for use under USDA meat, poultry, shell egg grading and egg products inspection programs.
STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a warm, dry area. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL: To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry.)

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying.

For Containers with capacities equal to or less than 5 gallons:
Triple Rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with the same oil used to dilute the product for use and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling if available or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION
Harmful if absorbed through skin and inhaled. Avoid contact with skin and clothing and inhaling vapor or spray mists. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

Wear a respirator with an organic-vapor removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number prefix TC-23C), or a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14G), or a NIOSH approved respirator with an organic vapor (OV) cartridge or canister with any R, P or HE prefilter when applying this product as a space spray.

ENVIRONMENTAL HAZARDS
This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water when disposing of equipment wash waters.

PHYSICAL OR CHEMICAL HAZARDS
Combustible. Do not use or store near heat or open flame.

KEEP OUT OF REACH OF CHILDREN

CAUTION
FIRST AID

IF SWALLOWED:
• Immediately call a poison control center or doctor.
• Do not induce vomiting unless told to do so by a poison control center or a doctor.
• Do not give any liquid to the person.
• Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

IF INHALED:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance. Then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Contains petroleum distillate — vomiting may cause aspiration pneumonia. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.
