

Tim-bor®

Insecticide • Fungicide • Wood Preservative

Use as a Dust, Liquid, or Foam.

*One of America's most popular professional pest control products.
Active ingredient: Disodium Octoborate Tetrahydrate*

Tim-bor Wins the Fight Against Drywood Termites, Decay Fungi, Wood Boring Beetles, and Carpenter Ants.

- Highly effective
- Water soluble
- Economical
- Odorless
- Can be used in conjunction with fumigation for residual protection
- Formulated with a concern for the environment

Tim-bor Provides Long Lasting Protection.

Tim-bor diffuses into wood and acts as a wood preservative, fungicide, and insecticide. Tim-bor will not break down over time like most organic compounds and therefore offer longer lasting protection.

Tim-bor Has No Known Resistance.

For Interior and Exterior

Control of:

- Drywood Termites
- Decay Fungi
- Carpenter Ants

Prevention of:

- Wood Boring Beetles
