Cardinal Professional Products Is Pleased To Announce Their 2012 Schedule For Online Product Stewardship Training!

Cardinal Professional Products will be hosting online product stewardship training the second Wednesday of each month throughout 2012 for its customers who require training recertification courses! There are several reasons why this option may be beneficial to you:

- Flexible meetings: This gives you the opportunity to maintain your stewardship certification without having to arrange physical meetings.
- Low cost: Instead of booking meeting rooms, halting business, and paying for overnight stays this option gives you the ability to make sure all of your employees receive the best training at the lowest cost!
- It's not a one time training option: If you or one of your employees misses the training for any reason you can relax! There will be another one next month!

Of course, we also understand that field visits are sometimes necessary and preferred, and Cardinal will still offer the same hands on training that you have come to count on over the years.

Please note: These online courses are for recertification only, and will be available only to those customers who have been previously certified in the use of these products.

To sign up for a specific training session, or to request the training schedule:

- Email us at training@cardinalproproducts.com
- Provide your name, organization, state license number, and a return email address
- Request a training date and subject (ProFume®, ECO₂FUME®, or Card-O-Vap™8)
- A GoToMeeting® invite will be sent via email to confirm your training date and time
- Log on and attend the class

Once this is done you're on your way to being recertified. You'll receive an email with your certification attached!

Note: These meetings will be facilitated via GoToMeeting®, so each participant will need a computer, an internet connection, a telephone or a computer equipped with a microphone and speakers, and the GoToMeeting® software (which can be downloaded for free just prior to the meeting by clicking on the link in the email invite. (please allow an extra 15-20 minutes if you need to download the software))
